The U.S. African Development Foundation (USADF) is an independent U.S. government agency established by Congress to invest in African grassroots organizations, entrepreneurs, and SMEs. USADF's investments promote local economic development by increasing incomes, revenues, and jobs. Utilizing a community-led development approach, USADF provides seed capital and local project management assistance to African-owned and -led enterprises addressing some of Africa's biggest challenges around food insecurity, insufficient energy access, and unemployment—particularly among women and youth. Over the last five years (2016–2020), throughout Africa's Horn, Sahel, and Great Lakes regions, USADF has invested more than US\$117 million dollars directly into over 1,000 African-owned and -operated entities and impacted over four million lives.

USADF Niger Investments in 2021*

USADF invests directly in African community enterprises, providing grant capital and local technical support to early-stage businesses.
